PASSIVE FIRE PROTECTION

Rise and Shine Contracting LLP's Fireproofing Division, which was started a decade ago to fill the void of professional applicators has now grown into a preferred applicator of all manufacturers. Unlike other approved applicators, RNSLLP provides design advice along with application services to add value to its client. As the technology in passive fire protection advances, RNSLLP has taken the initiative and moved astride with developments, resulting in a division abreast with the latest and best solutions to cater to client's needs

Our project management team is fully aware of application requirements for Pyrolite, Pyrocrete, Southwest, A4, A5 Series of Fireproofing products manufactured by Carbolite, Cafco Series & Fendolite MII, Durasteel, Promatect and other products manufactured by PROMAT/CAFECO, Pyrocrete, PITTCHAR XP manufactured by PPG, CHARTEK & INTERCHAR Series Fireproofing products manufactured by INTERNATIONAL PAINTS and many more local & international brands.
